SELECT PROJECTS

Optimal Blackjack, Sole Developer, Demo, GitHub Repository

- Created a functional Blackjack game that provides feedback to the player on each move that they make and tracks player statistics
- Built the website with HTML, CSS, TypeScript, React, Redux, Express, PostgreSQL, Sequelize, and Chart.js

Bon Voyage, Developer, Demo, GitHub Repository

- Built a website that allows the user to search two flights and compare airfare and estimated accommodations for the two trips
- Followed agile practices in the construction of the website
- Utilized HTML, CSS, JavaScript, React, Redux, Express, Chart.js, Fuse.js, and Bulma to build the website

How to build a React / Express app with TypeScript, Writer, Link

- Wrote an article on Medium that acts as a guide to users who want to build a React / Express app with TypeScript

WORK HISTORY

Freelance Web Developer, 01/2021 to 04/2021

Websitesuccessstips.com - Remote

- Built a BuzzFeed style quiz using React that helps users find branding that best fits their business ([Link](#))

Investment Banking Credit Analyst, 06/2018 to 10/2020

J.P. Morgan - New York, NY

- Streamlined performance and capital reporting for J.P. Morgan Credit Officers through the construction of an Excel spreadsheet that transformed unformatted CSV files into clean and organized tables
- Collaborated with a team of 5-8 analysts to prepare quarterly presentations that were subsequently delivered to Senior Executives at J.P. Morgan and financial regulators
- Analyzed over \$1 billion of J.P. Morgan's exposure to potential losses via stress analysis of portfolios that primarily consisted of financial derivatives
